CONSEQUENTIALITY
SUBSTRATE L23–31
PRESSURE-SPECIFIC
L35–47
total (threat mean)
pressure-specific residual
consequentiality
7.74 = 2.98 + 4.76
total = substrate + residual
residual is 8-21x the substrate
across L35-47
Projection gap along Stage 1 direction
(activation units)
Layer (residual stream)
